First Grade children must be 6 years old by 1st December (of current year).

Our school is dedicated to the growth, transformation and cultivation of teachers and students to our ever-changing technology.

We inspire our students to greater achievements. For our students to be prepared for their future, they will need to have an understanding and familiarization of technology's capabilities, usefulness and benefits.

Our vision of utilizing technology in education incorporates the philosophy of "equity in education". We teach beyond the classroom by propagating knowledge to parents and kids at home.

We offer the most affordable and the best education in the archdiocese.

Mr. Bill Kovacich  
Principal
